Parish/Town News Release

Howdenshire Update for May 2017

1. Priority

Issue: Youths causing annoyance around the areas of the Church and playing fields in Gilberdyke.

Throughout May, officers will continue to patrol the above areas on Clementhorpe Road to deter any potential anti-social behaviour. Anyone caught engaging in anti-social behaviour will be dealt with under the FAIRWAY process jointly with East Riding of Yorkshire Council. It is unlikely that any discretion will be shown.

2. Meetings

Police Drop In Surgery

PCSO Simon Palmer will be holding a surgery at the Travelling Library, Gilberdyke Memorial Hall car park, Clementhorpe Road, Gilberdyke on the 24th May (11:00- 12:00 hrs)

3. Examples of Crimes in your area.

- A cycle was stolen from a secure garage in North Cave.
- A van was stolen in Newport.
- Fence panels of a property in Holme Upon Spalding Moor have been damaged.
- A shop in Holme Upon Spalding Moor was broken into.
- The glass from a wing mirror of a car parked in North Cave was stolen.
- A secure container belonging to a business in Holme Upon Spalding Moor was broken into.
- Access was gained into a car in North Cave and cash stolen.

4. News and Appeals

Going on your holidays?

Remember home security

Imagine that you have returned home after a fantastic holiday to discover your home has been burgled...it is not something the police want anyone to go through.

Just because you are on holiday does not mean burglars are taking time off too and if it looks like you are away then your home could become a target. We are urging everyone to check their holiday security before they go away and ensure their holiday is one to remember for the right reasons.

Follow our simple tips to secure your home against burglars:

- Make sure your windows and doors are locked. If you have a burglar alarm turn it on and leave the key or passcode with a family member or trusted neighbour.

Protecting Communities, Targeting Criminals, Making a Difference

Parish/Town News Release

- Remove and secure items that may be used to break in or climb into your home and lock your outbuilding so burglars can't use the tools inside.
- Use automatic timer-switches to turn on a light and perhaps a radio when it gets dark.
- Ask a trusted neighbour or family member to come round and open and close curtains, plus move the post, so it looks like people are coming and going at your home.
- Cancel any newspaper or milk deliveries.
- Don't advertise that you are away. Social networking sites like Facebook and Twitter can be a risk if people know you are away and your home is empty.
- Work with your neighbours to keep an eye on each other's homes. Neighbourhood Watch and Neighbourhood Networks encourage this type of community spirit and long term it may be worth joining one or setting one up in your street. For details visit: www.ourwatch.org.uk or contact your local policing team.
- Never leave keys anywhere near the front door; burglars know where to look. Consider fitting a letterbox cage or other restrictor to prevent burglars from putting their hands or gadgets through and opening the latches from the inside.

The public should call the police if they see people acting suspiciously in their community, if there is a burglary in progress or if they have details about those involved in criminality. This can be done using 999 in an emergency, 101 in a non-emergency or Crimestoppers anonymously on 0800 555 111.

Scheme: Laxton – Cotness Corner 11KV Overhead Line Rebuild

Ref YC18596

Location – Chapel Lane, Laxton, Goole, East Yorkshire, DN14 7UA.

Northern Powergrid (Yorkshire) is proposing to rebuild the existing overhead 11,000 volt overhead lines at the above location. The overhead lines will be rebuilt outside the 30 metres tolerance allowed in the Electricity Act 1989, Overhead Lines (Exemption)(England and Wales) Regulations 2009.

There will be three conductors (wires) supported on steel crossarms mounted on wooden poles. The three conductors will be of aluminium alloy construction and the proposed line will be constructed to the ESI 43:40 standards. The project involves rebuilding the existing 11,000 volt overhead network that is some 50 years old. This rebuilding exercise is intended to ensure Northern Powergrid (Yorkshire) continues to meet its customers' requirements for the foreseeable future.

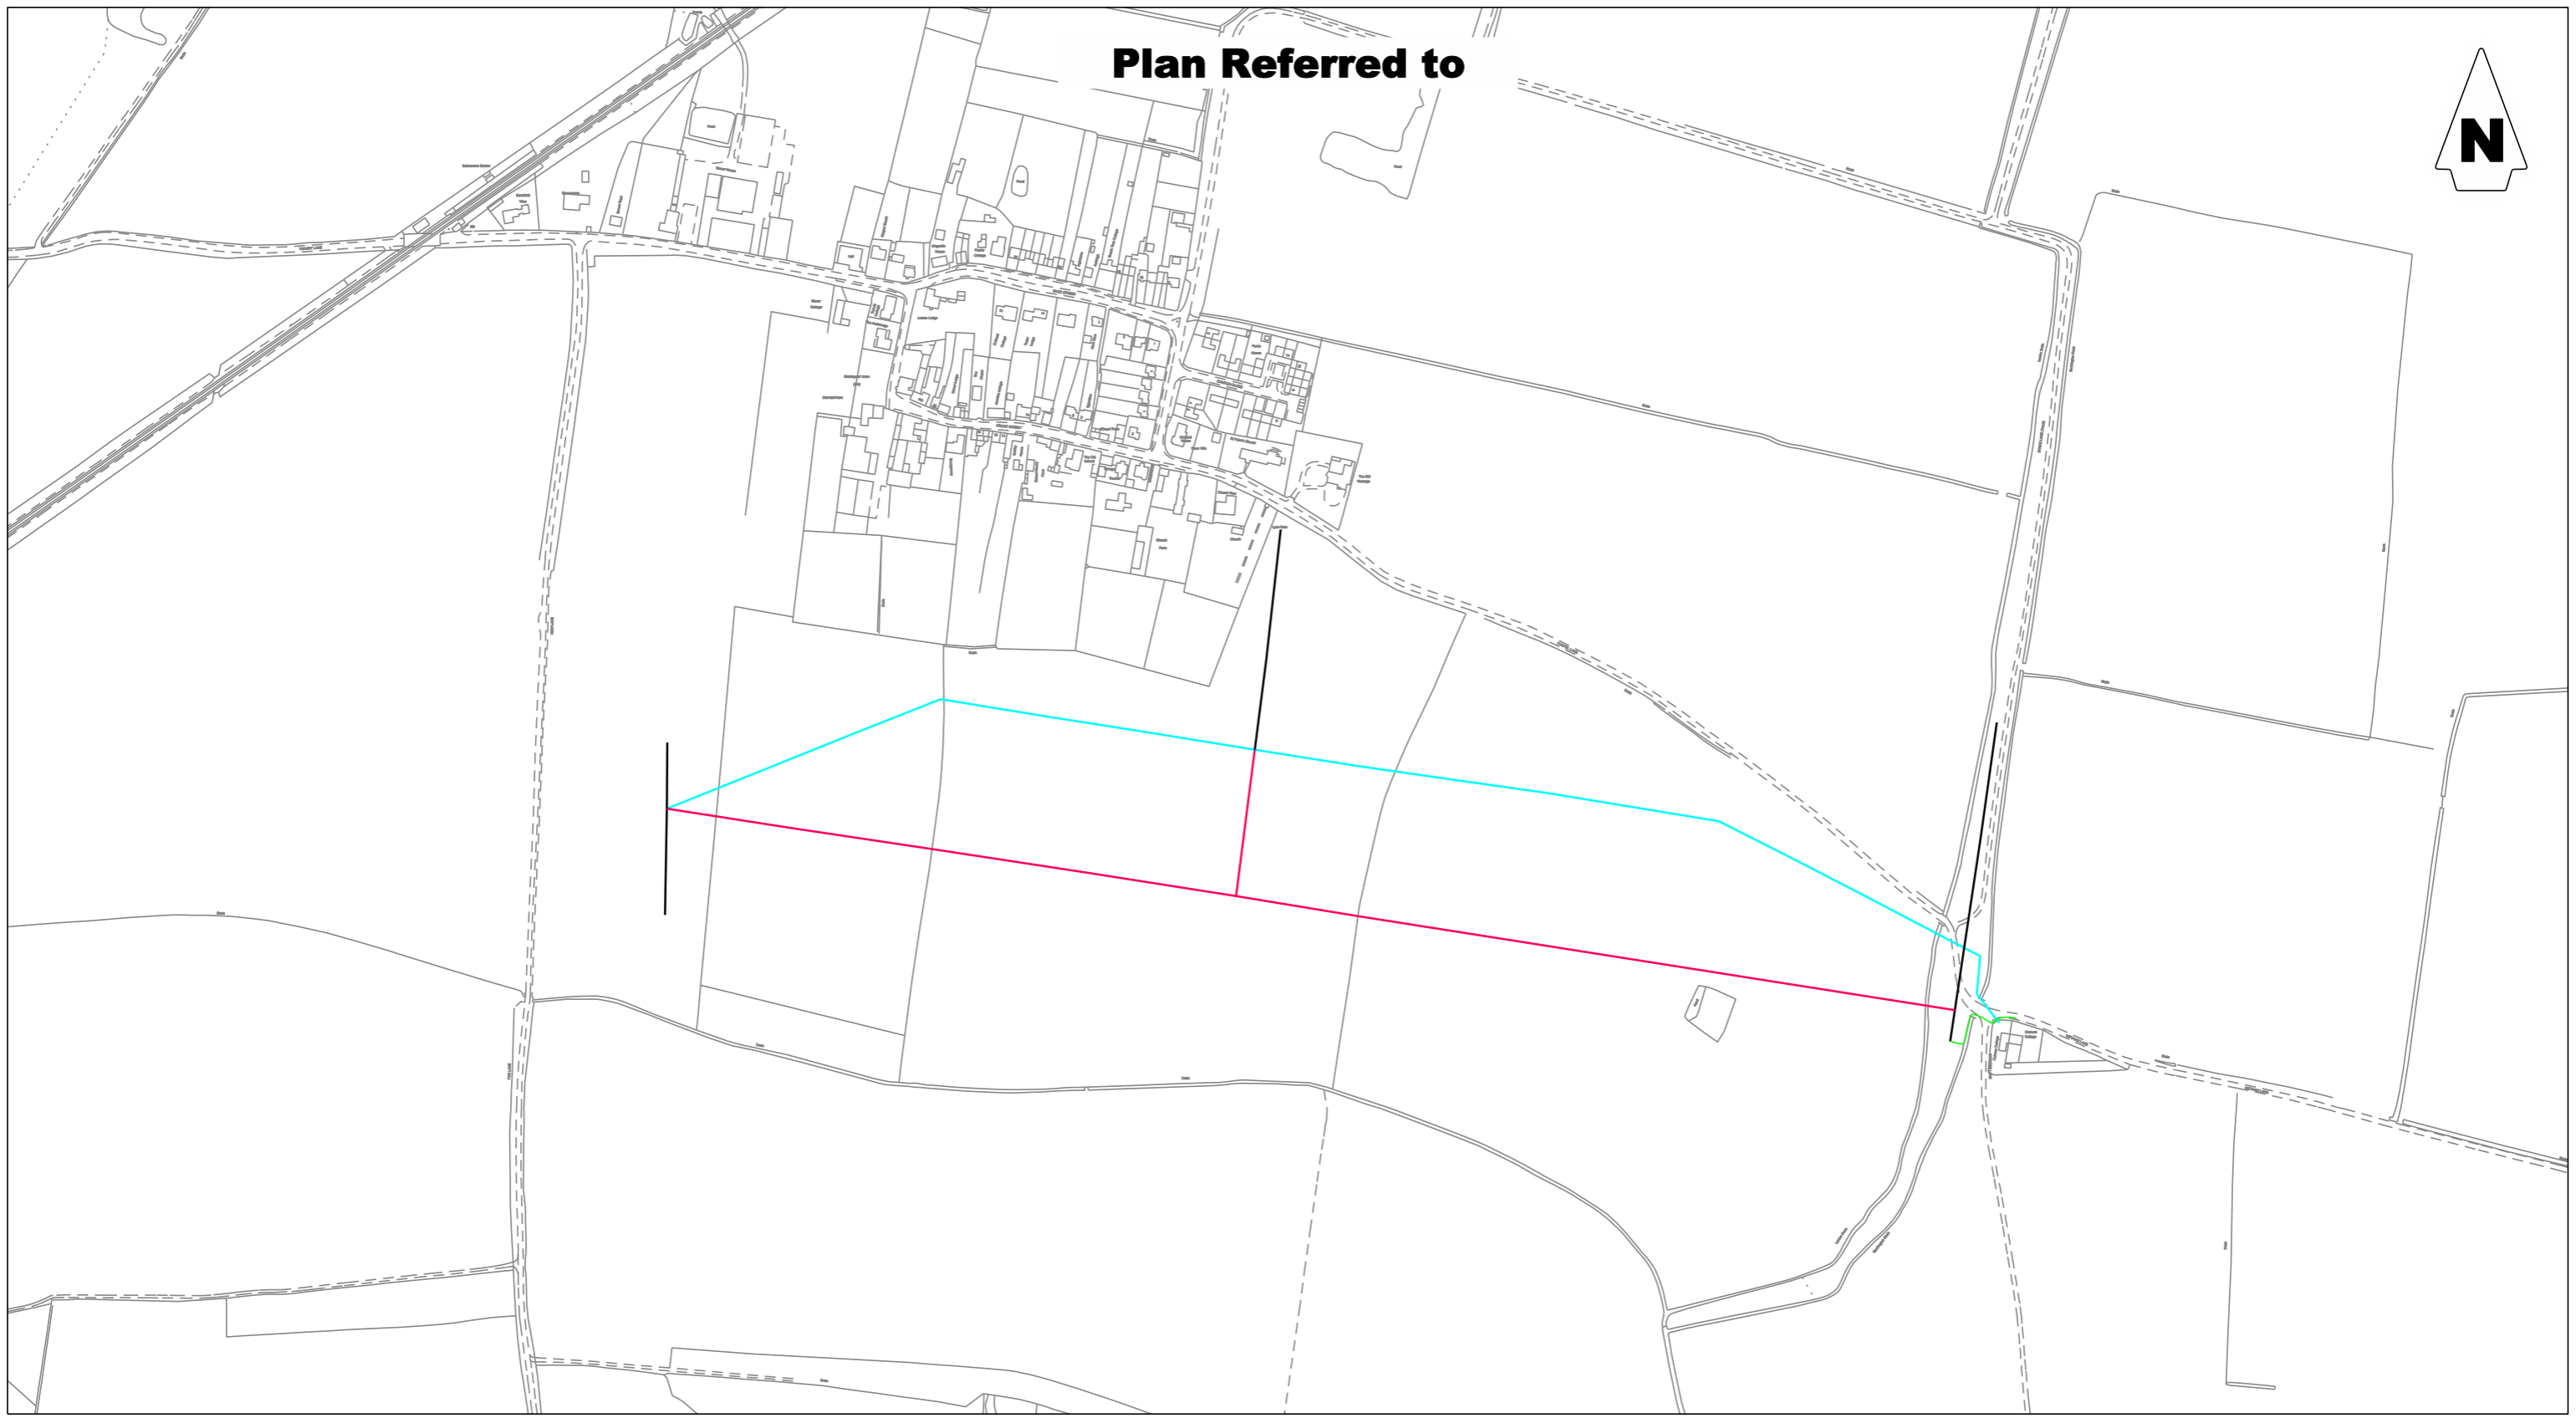

The overhead line is being rebuilt along a new route due to a number of incidents involving motor vehicles colliding with an existing wood pole situated adjacent to the road at Cotness Corner. This has caused injury to the driver and passengers as well as loss of supply to the electricity network on each occasion.

The length of the new overhead line shown red on plan C1066267 is 1130 metres.

The length of the overhead line to be removed is 1080 metres and is shown coloured blue.

Humber Sites and Monuments Record have been consulted. They have requested a programme of archaeological observation, investigation and recording be carried during the proposed work. Humber Archaeology Partnership has been contacted and they will carry out this work.
